

REMARKS

Claims 1-6 are active in the present application.

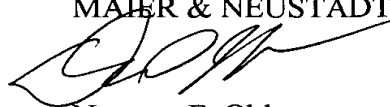

The original Sequence Listing as filed on August 27, 2001, discloses that the amino acid at position 215 in SEQ ID NO. 7 is Glycine. However, the substitute Sequence Listing filed on December 26, 2001, erroneously recites amino the acid at position 215 in SEQ ID NO. 7 as Phenylalanine. Therefore, the substitute Sequence Listing attached hereto is submitted to correct this typographical error.

Applicants submit a substitute Sequence Listing and a corresponding computer-readable Sequence Listing. Contents of the paper copy of the substitute Sequence Listing and the computer-readable Sequence Listing are identical. Support for all the sequences listed in the substitute Sequence Listing can be found in the present application. No new matter is introduced by the submission of the substitute Sequence Listing and the computer-readable Sequence Listing.

Applicants submit that this application is in condition for allowance. Early notice to this effect is earnestly solicited.

Respectfully submitted,
